Claudia S. Miller

Sick building syndrome (SBS) is a medical condition where people in a building suffer from symptoms of illness or feel unwell for no apparent reason. The symptoms tend to increase in severity with the time people spend in the building, and improve over time or even disappear when people are away from the building.

Prior animal studies have shown ingestion of melamine may lead to kidney stones, cancer or reproductive damage. One 1945 study suggested the chemical increased urine output when fed to dogs in large amounts. The chemical is known to have a very low toxicity in rodents. The U.S. FDA knows of no studies of melamine involving felines and, if melamine is responsible, the increased sensitivity of ...
