

comparative studies on the pdf

The Center for Comparative and International Studies (CIS) boasts a one-of-a-kind cooperation between two leading houses of political science, namely the ETH and the Institute of Political Science at UZH.

Home - Center for Comparative and International Studies

Comparative religion is the branch of the study of religions concerned with the systematic comparison of the doctrines and practices of the world's religions. In general the comparative study of religion yields a deeper understanding of the fundamental philosophical concerns of religion such as ethics, metaphysics, and the nature and forms of salvation.

The goal of this comparative religion site is to investigate whether or not world religions are complementary.

World Religions: Comparative Analysis

Comparative psychology refers to the scientific study of the behavior and mental processes of non-human animals, especially as these relate to the phylogenetic history, adaptive significance, and development of behavior. Research in this area addresses many different issues, uses many different methods and explores the behavior of many different species from insects to primates.

Research on school dropout extends from early 20th-century pioneers until now, marking trends of causes and prevention. However, specific dropout causes reported by students from several nationally representative studies have never been examined together, which, if done, could lead to a better understanding of the dropout problem. Push, pull, and falling out factors provide a framework for ...
