Engineering Software for Wood Design in the USA. Produced with technical guidance from industry's codes and standards engineers.

WoodWorks Software US Design Office Suite - CWC

Oracle acquired Sun Microsystems in 2010, and since that time Oracle's hardware and software engineers have worked side-by-side to build fully integrated systems and optimized solutions designed to achieve performance levels that are unmatched in the industry. Early examples include the Oracle Exadata Database Machine X2-8, and the first Oracle Exalogic Elastic Cloud, both introduced in late 2010.

The Rational Unified Process (RUP) is an iterative software development process framework created by the Rational Software Corporation, a division of IBM since 2003. RUP is not a single concrete prescriptive process, but rather an adaptable process framework, intended to be tailored by the development organizations and software project teams that will select the elements of the process that ...

Rational Unified Process - Wikipedia

1. Introduction. The architectural, engineering, and construction (AEC) industry is characterized by fragmentation which exists both within individual phases as well as across project phases .Because of this fragmentation, participants from various organizations who are involved in a project phase or in different project phases are facing ineffectiveness and inefficiency in their coordination ...

The recent initiatives of the construction industry to embed sustainable strategies in its processes can be enhanced when clear and practical benefits of such integration are available to project stakeholders to support their decision-making.

Identifying and prioritizing the benefits of integrating

Christopher Bollyn is a well-travelled writer and an investigative journalist who has done extensive research into the events of September 11, 2001, the conflict in Middle-East and the health effects caused by exposure to depleted uranium.

Christopher Bollyn

In collaborations that combine our expertise with that of industry, academia and other government laboratories, our scientists and engineers deliver research tools and solutions that enable access to affordable, environmentally clean energy, and reduce our dependence on foreign energy sources.
