Critical thinking is the objective analysis of facts to form a judgment. The subject is complex, and several different definitions exist, which generally include the rational, skeptical, unbiased analysis, or evaluation of factual evidence. Critical thinking is self-directed, self-disciplined, self-monitored, and self-corrective thinking. It presupposed assent to rigorous standards of ...

Thought encompasses a "goal oriented flow of ideas and associations that leads to a reality-oriented conclusion." Although thinking is an activity of an existential value for humans, there is no consensus as to how it is defined or understood. . Because thought underlies many human actions and interactions, understanding its physical and metaphysical origins, processes, and effects has ...
